[City, State, ZIP Code]

Dear [Landlord's Name],

I am writing as a tenant of [property address] to respectfully request that the property be tested for radon gas.

Radon is a naturally occurring radioactive gas that can build up indoors and is known to cause lung cancer. The U.S. Environmental Protection Agency (EPA) recommends that homes with radon levels at or above 4.0 pCi/L take corrective action. According to the North Carolina Department of Health and Human Services, many areas in the state are considered to have medium or high radon levels.

To help ensure the health and safety of everyone living in the home, I kindly ask that you schedule radon testing with a certified radon measurement professional or provide an approved home test kit. More information on certified professionals and test kits can be found on the North Carolina Radon Program's official website at: **<https://www.ncdhhs.gov/radon>**

Thank you for your attention to this important matter. I appreciate your help in maintaining a safe and healthy living environment.

Sincerely,
[Your Name]
